EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Meikle on February 14, 2005.

The application has been amended as follows:

Claim 10, line 2, delete (9) and insert - - 8 - -.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly suggest a multi-piece solid golf ball comprising a core consisting of an inner core, an intermediate layer formed on the inner core and an outer layer formed on the intermediate layer, and a cover covering the core, wherein the inner core has a flexural rigidity of 20 to 80 MPa, a ratio (R_M/R_I) of a flexural rigidity of the intermediate layer (R_M) to that of the inner core (R_I) is within the range of 0.6 to 1.4, a flexural rigidity of the outer layer is higher than that of the inner core by 70 to 500 MPa, and assuming that a radius of the golf ball is represented by r_G , a radius of the inner core is represented by r_I and a radius of a two-layer structured core obtained by forming the intermediate layer on the inner core is represented by r_T , the intermediate layer is placed such that the r_G , r_I and r_T satisfy the following two formulae: $r_I/r_G \geq 0.70$ and $r_T/r_G \leq 0.83$.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
